

Office 365 SharePoint for all devices

We upgrade your Office 365 intranets
to support mobile devices.

Brand your Office 365 intranet and make it responsive too.

Modern look and feel for your Office 365 sites

Have a new up-to-date visualization for your Office 365 intranet - simply. A variety of professionally designed ready-made themes ensure fast and painless visual upgrade to your intranet. Both Office 365 intranets and Office 365 public sites are supported. That's not all, we also support your on-premises SharePoint 2013 intranet also.

Branding

Brand your Office 365 intranet to match the visual identity of your organization. Your own brand, your own familiar look and feel.

Branding is done quickly and efficiently by using your graphic guidelines, or an existing website as an example. No tedious web projects are needed.

One Office 365 site for all devices

Today intranets are used with a wide variety of devices. Mobile devices, tablets and desktops have all different screen sizes and capabilities.

Responsive fluid layouts match the content presentation automatically for different mobile devices, tablets and desktop browsers. This ensures the best experience for all users.

Now all devices can view the very same content with Neoxen Designer themes. No need for separate mobile pages or separate content for each supported device type. Save time, money and effort and make maintenance simple.

Neoxen Designer

Our experts discuss with you and help you to select a suitable theme for your Office 365 intranet. The theme can be used directly or as a starting point for visual customization.

Neoxen Designer themes include master pages, page layouts, image carousels and other widgets in one solution. Theme customizations allow your custom colors, logos and backgrounds.

Designed for SharePoint

- Reliable and scalable visual look and feel for Office 365 intranets
- Uses standard Office 365 and SharePoint methods for branding
- Manage the site visualization on farm, site collection or site level
- Easy upgrade with a new site theme when needed

Additional services

- Office 365 technical deployments
- Office 365 SharePoint intranets
- Server operating system installations
- Workstation Office 365 installations
- Office 365 training
