

FOR IMMEDIATE RELEASE

Press Release - 10/10/2003

Genestia Group, Inc released a major upgrade to Neoxen® Qwinux™, their professional Open Source distribution for concurrent Windows & Linux development. This new release is especially targeted for trainers and consultants

Genestia Group, Inc, a provider of system software, business development and process improvement solutions, has today released R4.2.0 of Neoxen® Qwinux™ - the comprehensive distribution of 'best-in-class' Open Source tools compiled and certified for Microsoft® Windows® operating systems.

The previous release of Neoxen® Qwinux™ was a major success. More than 5.000 copies were downloaded during the very first days from the main download site only. Approximately 20.000 copies have been downloaded since.

Neoxen® Qwinux™ R4.2.0 contains more development tools, integrated development environments for C++ and C#, and almost all the previous packages have been upgraded. More documentation has been added, most importantly to MinGW compiler environment. Furthermore, Neoxen® Qwinux™ R4.2.0 Standard Edition is now available also as individual module distributions. This new feature is a major convenience factor for the existing users. All the product modules can be downloaded and updated separately.

As an established and comprehensive Open Source distribution Neoxen® Qwinux™ is designed to meet the needs of professional developers, consultants and trainers as a definite source of free-to-use programming tools, compilers and documentation brought to Microsoft® Windows® environment. It is formatted in easy-to-read HTML and it provides the most comprehensive selection of 'best-in-class', ready-to-install software and documentation composed into a single unified distribution.

Genestia Group, Inc Press Release 10/10/2003: Neoxen® Qwinux™ R4.2.0

Neoxen and Qwinux are trademarks or registered trademarks of Genestia Group, Inc in USA and/or other countries. Linux is registered trademark of Linus Torvalds. All other trademarks, registered trademarks and product names are the property of their respective owners.

Neoxen® Qwinux™ is designed for project groups, systems integrators, independent software vendors, trainers and consultants. It is a valuable asset for rapid transition from one platform solutions to concurrent Windows and Linux programming.

“Similarly to the previous release, R4.2.0 is built as a Web site on a CD, which allows you to set it up directly into your intranet for online access”, says Esa Tervo, Chief Executive Officer and CTO at Genestia Group, Inc. “Excellent knowledgebase features have been extended and updated making it a great learning and teaching tool. It forms a solid foundation for professional training and education purposes, still providing all the tools for seasoned developers. Neoxen® Qwinux™ adds great value to our customers and it complements our other offerings, such as Neoxen® QX Framework and Neoxen® Modus. This release is again a step towards to our vision and a firm sign of our commitment to bring Windows and Linux closer to each other.”

Neoxen® Qwinux™ R4.2.0 Standard Edition is available directly from the vendor as a free download. Neoxen® Qwinux™ R4.2.0 Professional Edition delivered on a CD-ROM can be purchased online. For more information about availability, licensing, upgrade policy and other sales related matters, please contact sales@neoxen.com.
