

FOR IMMEDIATE RELEASE

**Press Release - 10.12.2003**

**Genestia Group, Inc released Neoxen Qwinux Special Editions to international retail channel**

*Genestia Group, Inc, a provider of system software, business development and process improvement solutions, has today announced the availability of Neoxen Qwinux Developer++ and Web Editions - the most comprehensive packages of 'best-in-class' Open Source tools compiled and certified for Microsoft Windows operating systems - in over twenty electronic retail outlets.*

The previous release of Neoxen Qwinux was a major success. More than 5000 copies were downloaded during the very first days from the main download site only. Approximately 20.000 copies have been downloaded since.

Neoxen Qwinux Developer++ and Web Editions contain more development tools, integrated development environments for C++ and C#, and almost all the previous packages have been upgraded. More documentation has been added, most importantly to MinGW compiler environment.

As an established and comprehensive Open Source distribution Neoxen Qwinux is designed to meet the needs of professional developers, consultants and trainers as a definite source of free-to-use programming tools, compilers and documentation brought to Microsoft Windows environment. It is formatted in easy-to-read HTML and it provides the most comprehensive selection of 'best-in-class', ready-to-install software and documentation composed into single unified distributions.

Genestia Group, Inc Press Release 9.12.2003: Neoxen® Qwinux™ R4.2.0 Special Editions

© 2003 Genestia Group, Inc. All Rights Reserved.

Neoxen and Qwinux are trademarks or registered trademarks of Genestia Group, Inc in USA and/or other countries. Linux is registered trademark of Linus Torvalds. All other trademarks, registered trademarks and product names are the property of their respective owners.

Neoxen Qwinux is designed for project groups, systems integrators, independent software vendors, trainers and consultants. It is a valuable asset for rapid transition from one platform solutions to concurrent Windows and Linux programming.

“Similarly to the previous release, these Special editions are built as a Web site on a CD, which allow you to set it up directly into your intranet for online access”, says Esa Tervo, Chief Executive Officer and CTO at Genestia Group, Inc. “Excellent knowledgebase features have been extended and updated making it a great learning and teaching tool. It forms a solid foundation for professional training and education purposes, still providing all the tools for seasoned developers. Neoxen Qwinux adds great value to our customers and it complements our other offerings, such as Neoxen QX Framework and Neoxen Modus. This new distribution mechanism opens up new opportunities to our partners and customers to reach the new segmented versions and updates quickly and efficiently.”

Neoxen Qwinux R4.2.0 Developer++ and Web Editions are designed for electronic delivery and are available from the well-equipped electronic retailers. The complete list of resellers can be found on the company [Web site](#).
