

For Immediate Release

Press Release – 14th of November, 2010 - Turku, Finland

Neoxen Reaches Gold

As the first Finnish software company Neoxen Systems has achieved the highest partnership level with ISV Competence in the new Microsoft Partner Program.

Microsoft Corporation has renewed their global partnership program. The new model is competence based and the existing Silver and Gold Certified partners were required to earn their new statuses in clearly specified expertise areas.

Neoxen System, a Gold Certified Partner in the previous partner program, has now proven their technological excellence by being the first Microsoft partner in Finland to achieve the demanding Gold level in ISV Competence. Globally Neoxen is now one of the rare ISV Gold Partners providing Information Management and eLearning Solutions for educational markets.

“This is a major land mark for us and for our customers as well. The new partner program is more demanding and requires every partner to raise their level of expertise – and to prove it. At the end of the day this is all for customer benefit”, says Tero Toropainen, Technology Director at Neoxen Systems. “Once again we have proven that our technology and our services meet and exceed the customer requirements. It is now acknowledged that our offerings with state-of-the-art cloud services continue to be in the bleeding edge - and still providing compatibility and robustness.”

For more information about the Neoxen partnerships, products and other sales related matters, please contact sales@neoxen.com.

Long-term cooperation for the customers favor
