

## For Immediate Release

**Press Release – September 1, 2005**

## The world goes 64-bit - Neoxen Systems reveals a roadmap to Windows Vista

*Neoxen Systems, an international software company specialized in Process Management and Improvement, and Information Management solutions for global markets, has today released a White Paper to unveil the future of the forthcoming 64/32-bit release of Neoxen Visual Modus 2005.*

"Microsoft [Visual Studio 2005](#) Team System is the most comprehensive change in the professional software development in a decade. This change is irrevocable - not only in the technical level, but also in the business level. For the first time Microsoft is entering into Software Lifecycle Management markets with a full set of integrated tools. At the same time, their new transparent development concept for both 32- and 64-bit software paves the way for the future." said Esa Tervo, CEO at Neoxen Systems. "We are going to see a wave of new 64-bit solutions in markets during the next twelve months – and Neoxen Systems is among the firsts in the line."

Neoxen Visual Modus 2005 will help users to take full advantage of Microsoft Windows simultaneously in both 32- and 64-bit environment with enhanced support for 64-bit AMD processors. Visual Modus 2005 is developed with Microsoft Visual Studio 2005 Team System from ground up and it implements a new intuitive user interface with native Visual Studio 2005 look and feel.

"Microsoft Visual Studio 2005 will form a foundation for both the forthcoming [Microsoft Office 12](#) and the next generation of Smart Client software. Our Visual Modus 2005 solution with the full integration with Visual Studio 2005 will be intimately linked with Microsoft Office 12 providing our customers a safe and secured transition to the emerging new world." Esa Tervo continues. "This is all part of our roadmap to [64-bit computing](#) and [Windows Vista](#). We will release our products in parallel

with Microsoft. We are now releasing for Microsoft Visual Studio 2005 Team System, but we will release for Microsoft Office 12 and for Windows Vista as well. We protect the existing investments of our customers and ensure the smooth continuity with a transparent and cost-effective upgrade path for the 64-bit world.”

Neoxen Visual Modus 2005 is designed to support Microsoft Visual Studio 2005 Team System and [Microsoft Solutions Framework](#). Furthermore, it is also compatible with, and perfectly supplements other major product development and software lifecycle management solutions from [IBM / Rational](#), [Borland](#), [Telelogic](#), [Softteam](#) and [Osellus](#).

Neoxen Visual Modus 2005 [White Paper](#) is freely available at Neoxen website. Product White Paper will give an overview of the product; to which it is targeted, benefits of using it and snapshot to the features.

**Neoxen Systems** is an international technology and software company producing new generation of software development products, and solutions for Process Improvement and Information Management.
